

Droitwich Local Group

Winter 2023

Worcestershire
Wildlife Trust

Hello from Worcestershire Wildlife Trust!

We wanted to start with a short update on the Local Group situation for your area. Unfortunately, at the moment, no volunteers to help run a committee to organise activities have come forward, which means that for now, no talks and walks are being run in the area.

If at any point you feel that you have the time to give to such a role, please get in touch with me (kate@worcestershirewildlifetrust.org or 01905 754919) for further information.

In the meantime, please do check the what's on pages of the Trust's website to see talks and walks run by other groups across the county, which you are more than welcome to attend. We'd love to see you at our popular Christmas Craft Fair at nearby Lower Smite Farm on Saturday 25th November www.worcswildlifetrust.co.uk/whats-on

Kate, Senior Membership Officer

Helping wildlife in Droitwich

The Trust's Natural Networks project, which provides advice on nature improvements for councils, charities and businesses, is working with Droitwich Town Council to improve two sites for wildlife.

Copcut Park and Spring Meadow have been put forward by the Town Council to receive a free Biodiversity Enhancement Assessment (BEA). The findings of this should lead to habitat enhancements across the two sites.

Potential enhancements that may be seen in the coming months include tree planting, wildflower meadow creation, spring blub planting and the installation of bird and bat boxes, plus insect hotel benches.

You can find out more about our Natural Networks project at www.worcswildlifetrust.co.uk/natural-networks

Finley, Natural Networks Officer
