Cunning Containers

Hanging baskets, planters & window boxes
for the wildlife garden

Hanging baskets, herb holders, mini meadows, even a pond in a pot - can you contain your joy? Pots and containers are one way of introducing wildlife features into more formal areas of the garden like the patio or outside the back door.

For smaller gardens, containers are perfect for a small space. Herbs in particular make good container plants and attract lots of wildlife - as well as being useful in the kitchen.

There are also many ingenious planting schemes to try...sow your own mini-wildflower meadow in a window box...line a pot with plastic to make a potted pond or bog garden...you can even use things like old chimney pots, sinks, kettles and holey boots as containers.

Planting ideas are given below for:

- A wildlife hanging basket
- Butterfly/nectar tubs and baskets
- Cornfield meadow pots
- Pond in a pot
- Wetland bog pot
- 'Woodland' pot for a shady position
- Heathland pot
- Chalk downland pot

# How to do it ... tubs and troughs for wildlife

Nectar-rich plants for butterflies and other insects

Early: aubretia, alyssum, snowdrops, species of crocuses, English bluebells

Late: red valerian, lavender, michaelmas daisies, yarrow

Long lasting and nectar rich: heliotrope, marigolds, scabious, knapweeds, agastache, buddleia

For bees and others: rosemary, sage, thyme, alyssum, comfrey, clover, borage, catmint, teasel

Larval foodplants: stinging nettle, ivy, bird's-foot trefoil, nasturtiums, garlic mustard, lady's smock (cuckoo flower)

#### Cover for hibernation: ivy

- 1. Drainage holes if necessary, drill 5-10mm diameter drainage holes into the bottom about 15cm apart.
- 2. Cover with crocks.
- 3. Half fill with peat-free compost.
- 4. Start planting: continue building up plants and compost until about 5cm from the top.
- 5. Water well and enjoy feed once a week and water frequently in summer.

Remember... native species are best but nectar-rich plants can be a good food source.

## How to do it ... wildlife hanging baskets

- 1. Rest the basket on a bucket or large pot for stability.
- 2. Line with an old woolly jumper (not a moss liner) cut to size or choose a solid basket.
- 3. Start planting using peat-free compost. Put in a tall, central plant (such as scabious, lavender, sage) with smaller ones around it and trailing plants through the sides.
- 4. Continue building up plants and compost until about 5cm from the top.
- 5. Water well and enjoy feed once a week and water frequently in summer.

Cool blues: aubrieta, lobilia, wild pansy, nepeta

Hot reds: marigolds, fuchsia

Neutral whites: sweet alyssum, erigeron, ox-eye daisy

Tall central plant: knapweed, scabious, lavender, snapdragon, pot marigold Herb smellies/eatables: verbena, patio tomatoes, chives, thyme, rosemary, parsley,

sage, patio strawberry, dwarf lavender

Trailers: ivy, nasturtium, honeysuckle, sweet pea, lobelia 'Pendula'

## Cornfield meadow pots

Cool blues: Cornflower, wild pansy

Hot reds: Poppy, corncockle, pheasant's eye Soft yellows: Corn marigold, corn buttercup

- 1. Drainage holes if necessary, drill 5-10mm diameter holes into the bottom about 15cm apart.
- 2. Cover with crocks.
- 3. Half fill with peat-free compost.
- 4. Start planting continue building up plants and compost until about 5cm from the top.
- 5. Water well and enjoy! Feed once a week and water frequently in summer.
- 6. Sow each year

### Boggy wetland pot

Cool blues: Water forget-me-not, brooklime, devil's bit

scabious, bugle, skullcap

Hot reds: Purple loosestrife, betony, marsh

woundwort, ragged robin, flowering rush,

Neutral whites, soft yellow

Gypsywort, marsh cinquefoil, cuckoo flower, soft rush,

and greens: meadowsweet, marsh marigold,

- 1. Drainage holes if necessary, drill 5-10mm diameter holes into the bottom about 15cm apart.
- 2. Cover with crocks, liner or plastic bags to retard drainage.
- 3. Half fill with peat-free compost.
- 4. Start planting continue building up plants and compost until about 5cm from the top.
- 5. Water well and enjoy! Feed once a week and water frequently in summer.

# Pond in a pot

Submerged oxygenators: hornwort, spiked water milfoil Submerged floaters: potamogetons, water starwort, frogbit Emergent plants (on a shelf): water forget-me-not, gypsywort, flowering rush, arrowhead, watercrowfoot

- 1. Find a suitable leak-free container such as an old sink with the plug-hole plugged.
- 2. Put a 2-4cm thick layer of peat-free compost in the bottom and cover with gravel to hold it down.
- 3. Run water in very gently, preferably over plastic to avoid stirring the substrate. Use rain water if possible. Let tap water stand for a few days
- 4. Plant up after a few days when water has cleared.
- 5. Maintain water levels.

# 'Woodland' pot suitable for a shady or semi-shaded position

Cool blues: wood forget-me-not, bluebell, burgle,

lungwort

Red hots: hedge woundwort, red campion, foxglove,

herb Robert, lungwort

primrose, lesser celandline, yellow Neutral whites, yellows & greens: archangel, ivy, wood avens, ferns,

hellebores, wood, sage, cuckoo pint,

spurge

- 1. Drainage holes if necessary, drill 5-10mm diameter drainage holes into the bottom about 15cm apart.
- 2. Cover with crocks.
- 3. Half fill with peat-free (especially use a leaf mould based) compost.
- 4. Start planting continue building up plants and compost until about 5cm from the top.
- 5. Water well and enjoy! Feed once a week and water frequently in summer.

#### Chalk grassland pot

Creeping thyme, common thyme, Low growing:

Flowers:

salad burnet, sheep's bit scabious, harebell, eyebright, self-heal, dog violet, quaking grass, restharrow, meadow clary, cowslip, kidney vetch, horseshoe vetch.

- 1. Drainage holes if necessary, drill 5-10mm diameter holes into the bottom about 15cm apart.
- 2. Cover with crocks.
- 3. Mixed crushed chalk with soil and half fill with peat-free compost.
- 4. Start planting continue building up plants and compost until about 5cm fro the top.
- 5. Water well and enjoy! Feed once a week and water frequently in summer.

## Quirky containers

You don't need to stick to pots and planters. Why not try...old watering cans, old kettles or teapots, old holey boots, old metal pails and buckets, old bird or other pet cages, paint tins, catering tins, old pans and colanders, old veg rack ... the sky's the limit!
