# Practical conservation work parties

## January - March 2026

**Practical conservation volunteers spend their time helping us on our nature reserves.**

**It is an active role, great for keeping fit and a great way to socialise.**

**Our roving group meets twice a week and helps to manage sites all over the county. Once we have you registered on our emergency info and email list, there is no need to book and you can usually just turn up at Lower Smite Farm or meet us on site.**

**Alternatively, you can stick to one reserve and see it change through the seasons.**

**For any of our practical conservation groups you need to wear: fieldwork/gardening clothes, sturdy boots or wellingtons and gardening gloves. Waterproofs are also recommended.**

## Work parties on nature reserves

Reserve work parties are a great way to look after wildlife local to you.

We have nature reserves across the county and many of them have a work party to help us maintain them on tasks such as coppicing, pond clearance, scrub management, fencing and invasive species removal. The groups are friendly, sociable and a great way of keeping fit.

Please get in touch at [volunteer@worcestershireswildlifetrust.org](mailto:volunteer@worcestershireswildlifetrust.org) or contact the reserve party leader. Please email the leader before attending for the first time to ensure you get full information.

**Parties marked \*\* are currently full or not meeting. Please contact the leader for more details.**
